Welcome to our practice,

We are delighted that you have chosen our office for your eye examination, and we look forward to the opportunity to provide the best eye care and service possible to you and your family. We recognize the responsibility placed on us to care for your eyes properly, and we want you to know that your satisfaction is extremely important to us.

While our office is proud to offer the benefits of the latest in eye care technology (such as the Optomap retinal exam), we haven't lost sight of the more important qualities that keep our patients coming back year after year. Above all, that is our commitment to an extremely thorough exam, a complete explanation of our findings and recommendations, and of course the opportunity for you to ask any questions.

At the conclusion of your examination, if eyeglasses are recommended, you are welcome to browse in our optical showroom with the assistance of our experienced opticians. Our optical department offers a wide variety of frames and lenses, competitive prices, and fast service with our on-premises optical laboratory.

If you are also considering contact lenses, at the conclusion of your examination, we will make recommendations for which type of contact lenses will work best for your particular prescription.

If you ever have any problem or questions about any aspect of your care here, please don't hesitate to call us. We are here to serve your eye and vision needs, and we are happy to help you in any way we can.

Yours Sincerely,

Steven A. Ohlbaum, OD

Michael W. Waterman, OD

John W. Van Slyke, OD
